

Imsyser System Stabiliser

Information and Benefits

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

A Wholefood supplement designed for modern day Auto-Immune Diseases where the true value of this amazing unique supplement lies in the value add of a daily internal cellular detox to re-establish internal cellular balancing whilst simultaneously supplying all the essential wholefood nutrition needed for optimal Immunity in all Immune compromised patients.

Imsyser is not just for people suffering from diseases; Imsyser can also be used as a beneficial food supplement or as part of a healthy nutritional program.

IMSYSER IMMUNE SYSTEM STABILIZER TABS 120'S:

- **UNIQUE COMPOSITION - 100% NATURAL & PROUDLY SA PRODUCT**
- **DEVELOPED IN 2004 AS PART OF CLINICAL TRIALS CONDUCTED AT STELLENBOSCH UNIVERSITY**
- **ASSISTS IN DAILY CELLULAR DETOX**
- **IMMUNE SUPPORT -ALL ESSENTIALS VITAMINS, MINERALS, AMINO ACIDS & OMEGAS PROVIDED**
- **VISIBLE RESULTS –NATURAL ENERGY BOOSTER**
- **AUTO-IMMUNE SUPPORT**
- **SUPERIOR WHOLEFOOD SUPPLEMENT USED ON ITS OWN OR USED AS PART OF THE IMSYSER 3 PRODUCT IMMUNE HEALTH 'KIT'**
- **SUITABLE FOR ALL AGES**
- **NAPPI CODED**
- **AFFORDABLE (1 MONTH SUPPLY)**

Made from medicinal plants such as Aloe Ferox, Hypoxis, Patatos & Water-Soluble Omegas straight from mother earth, designed to detox at cellular level, then feed/support by finally STABILIZING the Immune System NATURALLY....This is a WHOLEFOOD Nutritional Supplements thus providing 100% potential nutritional uptake.

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

It is a well-known fact that while some chemicals cure many medical conditions, they can also harm the body in various ways. Often when a chemical substance is used to help with a troubling condition, the same chemical causes another problem to arise (either immediately or sometime later). The result is that another chemical is required to cure the new ailment and so a vicious cycle of dependency begins.

For many years scientists and herbalists have tried to find alternative and/or natural cures for various problems. Unfortunately, most of the so-called 'cures' have, for some or other reason, never been made known to the public.

Thus, although a lot of the natural remedies used by traditional healers and mankind's forefathers really worked, modern man does not even know about them. In the not too distant past, no chemicals or artificial substances were used in healing practices. People had to rely on natural products to heal their various maladies. These natural products included things like plants, roots, insects, honey etc.

After extensive investigation a powerful immune system stabilizer, Imsyser, was developed and is the first in what will hopefully become a comprehensive range of all-natural health products.

All our health products originated for the purpose of supporting optimal balanced Immune Health through a healthy gut functioning, and are intended to form a well-balanced, stabilized body condition.

The Imsyser Immune System Stabilizer Tabs contains all essential nutrition:

22 Essential Amino Acids

11 Essential Minerals

11 Essential Vitamins &

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

a supply of natural Omega 3,6 & 9 (in its complete state); forming part of this unique design. The Imsyser Immune System Stabilizer Tabs is a wholefood product and therefore allows for optimal (100%) absorption with optimal output in the form of increased natural energy all day long. This process of complete absorption without waste through excretion as with most chemical alternatives allows for a perfect match to any RDA requirements.

The Imsyser Immune System Stabilizer Tabs – The History

This reliance on natural healing inspired the creator of Imsyser Immune System Stabilizer Tabs in 2002. Imsyser Immune System Stabilizer Tablets was formulated, at Stellenbosch University by the founder and the various scientists involved in formulating the incredible product, still today streets ahead of its competitors, made from South African indigenous plants, as harvested by the local communities, and then processed in CAMS compliant facilities in Pretoria, South Africa.

The Imsyser Immune System Stabilizer Tabs is a truly ground-breaking product design, still ahead of its competitors understanding modern day 'dis-eases' such as those Auto-Immune by nature, where toxicity remains core to disease. This scenario, our modern- day escalating health crisis.

100% Natural, Organic, and Proudly South African

The Imsyser Immune System Stabilizer Tabs is a 100% natural, organic product. No extractions or addition nutrition is included in this eco-friendly designed wholefood product since mother nature provides nutrition in its wholefood form only!

The Imsyser Immune System Stabilizer Tabs is a powerful, energy releasing tablet, truly unique in its design as it quite simply restores

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

balance from within by gently doing a gentle daily cellular detox whilst still supplying all the essentials for a healthy functioning Immune System.

The Imsyser Immune System Stabilizer Tabs were designed to support optimal health and 'dis-ease' prevention and not mere symptom alleviation as provided by most opposition chemical alternatives freely available in the marketplace ...

100% Safe to Use

Imsyser is a 100% natural product that contains no preservatives or stimulants such as alcohol or caffeine. Imsyser is safe for use in adults, children and pregnant women. Imsyser can be used without any other medication. Imsyser has been declared safe for human consumption.

All ages may use the product with/without the assistance of your health advisor since it is a 100 % natural product and safe to use with all other chronic medications. Since it restores balance and health at the root level of the 'dis-ease', relief from 'dis-ease' symptoms might be experienced quite quickly. A ground-breaking product.

It is a well-known scientific fact that for the body to function optimally i.e. free from 'dis-ease' a healthy Immune System (stemming from a healthy gut) is a fundamental requirement.

No Side Effects or Special Precautions

Although Imsyser has no known side effects, a slight headache might occur during the first couple of days due to the detoxification of the body at cellular level. If this occurs, it may be helpful to take only half the prescribed dose for the first three days and then resume with the normal dose. DRINK WATER TO FLUSH TOXINS....Sleeplessness may occur, due to natural energy increase in which case only half the recommended dosage should be taken in the morning and the balance not later than 14 H 00.

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

Health Benefits Feedback

Based on this and biofeedback from our clients through the years Imsyser may help with most Immune System related illnesses possibly including:

- Stress
- High blood sugar (diabetes)
- Colds and flu
- Allergies
- Asthma
- Rheumatoid Arthritis
- SLE (Lupus)
- Psoriasis and skin problems
- Coxsackie Virus
- HIV / AIDS
- Certain cancers
- Menopause
- Chemotherapy
- Osteoarthritis
- Gout
- Multiple Sclerosis
- Chronic Fatigue
- Sleeplessness
- Tuberculosis
- Mouth lesions
- Wound healing
- Memory loss and bad concentration
- Bacterial infections like sinusitis and tonsillitis
- Blood pressure and cholesterol abnormalities

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

- Poor blood circulation
- Impaired lung function
- Prostate hypertrophy, tumours and cysts
- Impotence
- Testicular tumours
- Urinary and Uterine infections
- Irritable bowel syndrome
- Spastic colon

Quite simply by allowing for wholefood plant nutrition to do that which it naturally does, improve nutritional levels whilst keeping improved circulation; there is no reason this amazing product may not provide relief for almost any disease conditions!!

Pharmacological Classification:

Food Supplement

Indications:

Immunity stabilizer / Energy Provider / Food Supplement

Directions for Use:

Adults take 4 tablets daily.

Children take ½ dose of adults.

Chronic cases usually start by taking up to 6 tablets daily till symptoms are relieved and then reduce intake to 4 /day and maintain as supplement. Children follow suit with ½ doses.

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

Natural energy improvement is to be expected and as a result should not be taken after 3 pm to ensure good sleeping habits may be maintained.

The Imsyser Immune System Stabilizer Tabs is a gentle 'cellular detox product' and as such should initially be accompanied by enough water to assist toxic removal out of the body. A slight headache might be observed.

In the case of truly chronic states of disease when patients have been bed-ridden or even in the case of very young children, tablets might be crushed and added to yoghurt, honey or peanut butter (or other) for easy use when swallowing is compromised.

Imsyser – 100% Safe to Use

Imsyser is a 100% natural product that contains no preservatives or stimulants, such as alcohol or caffeine. Imsyser is safe for use in adults, children and pregnant women.

Imsyser can be used without any other medication. Imsyser has been declared safe for human consumption.

No Side Effects or Special Precautions

Although Imsyser has no known side effects, a slight headache might occur during the first couple of days due to the detoxification of the body. If this occurs, it may be helpful to take only half the prescribed dose for the first three days and then resume with the normal dose.

How Imsyser Works In the Body

HYPOXIS

Sterols and sterolines provide tremendous health benefits. These substances are found abundantly in hypoxis, one of the main

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

ingredients of Imsyser. The body converts hypoxoside, (one of the sterols in Imsyser) into rooperol, a biologically active compound that has an inhibiting effect on the proliferation of certain cancer cells and HIV-1 (in 1995, the SA Medical Journal identified rooperol as an active anti-cancer component).

Hypoxoside is also helpful to those who suffer from the malfunctioning of the body's immune system.

ALOE

Aloe Vera acts as a vehicle for the delivery of nutrients to the body. In 1987 Clinical Review showed that acemannon, a compound found in Aloe Vera, seems to have remarkable antiviral properties - even where HIV is concerned. It appears that Carrisyn (the commercial name of acemannon patented by Carrington Laboratories) neutralizes the Aids virus by transforming its protein envelope, thus preventing it from attaching itself to the T 4 cells.

Clinical trials on people living with Aids have shown that acemannon reinforces the body's immune system, which may slow down the progression of HIV. Aloe is also known to unblock and clean the receptors inside the lining of the intestines, facilitating the absorption of vitamins and other nutrients into the bloodstream. However, while studies have shown that aloe does have numerous benefits, no reputable study or scientist has yet claimed that aloe will work the same for everybody.

Please note that there is no known method of curing HIV/Aids. Accordingly, Imsyser should not be viewed as a cure, but rather as an option in possibly arresting or slowing down the HI virus. Aloe Vera has not been scientifically proven to completely remove HIV from the body. Anyone who claims to have found a natural product that cures HIV / Aids is either misinformed or trying to deceive people intentionally for their own purposes. Nevertheless, Aloe Vera provides some hope in

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

the battle against many illnesses, as it helps to strengthen the human immune system.

ANTIOXIDANT

Oxidation is a chemical reaction that can damage DNA cells, which can sometimes lead to cancer and other diseases. Antioxidants include Vitamin C and E and Aloe Vera is one of the most potent sources of these. Rooperol from the Hypoxis plant is also a powerful antioxidant. All the antioxidants in Imsyser effectively neutralize harmful free radicals.

CHOLESTEROL

The plant sterols in Imsyser compete for absorption with animal sterols (such as cholesterol), resulting in lower cholesterol absorption. There is also evidence that plant sterols are converted by the body into stanol. Studies show that campestanol can actively lower cholesterol by 15%.

IMMUNE SYSTEM

Sterols and sterolines located in the corn of the Hypoxis plant act to stabilize and normalize the immune system. Sterols and sterolines have been shown to stimulate T-cell proliferation. T-cells (part of the immune system) are responsible for recognizing infected cells. Once the T-cells have identified the infected cells, they release chemicals called lymphokines, which attract cytotoxic cells that in turn destroy the infected human cells. Thus, sterols and sterolines boost the part of the immune system that is responsible for identifying foreign cells.

CANCER

It is well known that when an individual's immune system is low, the condition allows cancer cells to multiply. By enhancing the function of T-cells and the secretion of lymphokines, more of the cancer cells will be attacked and killed. Imsyser can also help to slow down the growth

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

of certain types of cancer tumours. Cancer sufferers also find that it lessens the unpleasant side effects of chemotherapy because it boosts the immune system, which is drastically weakened by these harsh treatments.

ALLERGIES AND ASTHMA

Allergies and asthma are caused by an overactive, non-sensitive immune system. The sterols and sterolines in Imsyser help to prevent the body's immune system from incorrectly attacking the body's own cells. By sensitizing the immune system, they enable it to identify and target foreign cells effectively.

With allergies, the lymphokines secreted by the T-cells promote the B-cells to make certain types of antibodies. Because sterols and sterolines stimulate the secretion of good lymphokines, the symptoms of an allergic state can be alleviated.

MUSCULAR PAIN AND STIFFNESS

Sterols and sterolines decrease the factors which induce tissue inflammation. These include things like muscular aches, tissue damage and stiffness.

ARTHRITIS

Sterols and sterolines assist in treating rheumatoid arthritis because of their anti-inflammatory properties, as they decrease cytokine secretion in the synovial fluid. The aloe in Imsyser prevents arthritis and reduces the inflammation in joints that are already affected. It also inhibits the autoimmune reaction associated with certain forms of arthritis, in which the body attacks its own tissue.

MULTIPLE SCLEROSIS AND SYSTEMATIC LUPUS ERYTHEMATOSUS

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

In multiple sclerosis and systemic lupus erythematosus, the immune system starts to attack the body by producing antibodies directed at the body's own cells. These conditions are known to arise in response to an overproduction of lymphokines, which promote the functions of B-cell-making antibodies. If the correct lymphokines could be secreted by the T-cells, one should be able to correct the disease's process and alleviate the condition. In other words, the sterols and sterolines in Imsyser treat the underlying causes of MS and lupus, and not the symptoms.

STRESS

Stress is one of the biggest killers of modern man. It is an established fact that stress has a detrimental effect on the immune system due to the resulting synthesis and release of hormones such as cortisol. Sterols and sterolines decrease the levels of cortisol in the blood.

BACTERIAL INFECTIONS

Hypoxis stimulates the human immune system by increasing the amount of white blood cells in the body. White blood cells are responsible for killing invading germs and bacteria.

DIABETICS

Aloe Ferox significantly reduces the blood sugar level in diabetics.

INTESTINES

Aloe is also known to help unblock and maintain the lining of the intestines. This facilitates the absorption of vitamins and other nutrients into the bloodstream.

CHRONIC VIRAL DISEASES: HIV / INFLUENZA / COXSACKIE

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

We know that, in infections such as HIV, immune suppression is due to the body's immune system failing to make enough lymphokines, which stimulate the activity of cytotoxic T-cells, which in turn fail to divide in response to the invading virus or other opportunistic organisms. Since the sterols and sterolines in Imsyser stimulate both the proliferation of lymphocytes, when these must respond to invading organisms, as well as the secretion of lymphokines, the immune system can cope better with this unwanted onslaught. In addition, an extract of mannose, one of the sugars in aloe, can inhibit HIV-1 (the virus associated with Aids).

THERE IS NO CURE FOR AIDS BUT IMSYSER COULD ARREST OR SLOW DOWN HIV.

Imsyser Versus Antiviral Treatment Of HIV

Imsyser is a 100% natural product with no known side-effects. It enhances the immune system, slows down virus production, may reduce viral load, suppresses the spread of viruses from affected cells to healthy ones, and increases the chance of survival for the infected cells.

Anti-retroviral treatment impairs one's quality of life due to unpleasant and harmful side effects. These drugs may prolong life but damage the immune-hosting cells that are needed for the correct functioning of the immune system. Many anti-retroviral drugs cannot distinguish the difference between healthy and infected cells; thus, they simply destroy both. This results in severe side effects that are caused by damage to the immune system.

Questions & Answers

Q: There are so many kinds of Antioxidants on the shelves and all seem to work. Why should I choose Imsyser?

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

A: Most of the antioxidants that are currently on the market work quite well. But one must remember that the only purpose of antioxidants is to get rid of free radicals in the body. This is a good thing, because free radicals are harmful to the body and certainly not good for your health. However, this 'cleansing' process only takes two to four weeks. What happens after that is quite important. Imsyser not only 'cleans' the body of free radicals, but also puts back all 10 essential amino acids and all three essential fatty acids (Omega -3, -6 and -9). Figuratively speaking, one must drain the old oil from your vehicle from time to time, but it's just as important to put new oil back in again. And this is exactly what Imsyser does.

Q: Is Imsyser a medicine?

A: To register a product as a medicine is a very expensive exercise. To make any official recognized claims, a product must be put on a 'trial run'. Done correctly with the right number of participants, such an undertaking can take anything from two to five years and could easily cost in excess of R 5 million. For this reason, the makers of Imsyser are not claiming that the product is a medicine, nor are they claiming that it is a cure. Instead Imsyser is classified as a 'food supplement'.

Q: What does "essential" mean?

A: Essential means that your body cannot 'produce' or 'manufacture' this type of 'food' although it is vital for a healthy living. You therefore must supplement it.

There are two reasons why people do not get these essentials in their daily food intake:

1: Modern people no longer eat a balanced diet;

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

2: Even if people do enjoy a balanced diet, the food is often manipulated with chemicals - so a great deal of its nutritional value is lost.

Q: Are the plants and herbs used in Imsyser also treated with chemicals? **A:** FIRST OF ALL: NO HERBAL PLANTS ARE USED IN IMSYSER.

A: All plants are indigenous South African field plants and, for the most part, are harvested in the field. We take good care that these plants are not fertilized or treated with any chemicals.

Q: Is Imsyser an Immunity Booster?

A: No.

Imsyser is not an Immunity Booster, but rather an Immune system stabilizer or sensitizer. Imsyser brings an under or overactive immune system back to normal.

Q: Can my immune system become overactive if I use an Immunity Booster?

A: Yes.

But Imsyser is NOT an immunity booster. An over-effective immune system is responsible for conditions such as rheumatoid arthritis, SLE (lupus), psoriasis, allergies, asthma, etc. That is why one cannot just presume that an immunity booster will aid in fighting a certain condition when it in fact worsens these conditions.

Q: Is Imsyser a vitamin supplement?

A: Although Imsyser contains 11 vitamins, it is not classified as a vitamin supplement because the vitamins it contains do not occur in very high concentrations. But Imsysers' other beneficial properties (such as the

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

provision of 10 essential amino acids and all three essential fatty acids) mean that it is far more than a simple vitamin supplement.

Q: Can I replace any of my medication with Imsyser?

A: No.

First, Imsyser is not a medicine. It is a food supplement. Do NOT stop using any prescribed medicines when

taking Imsyser. The product is perfectly safe for use with any other medication and one may even find that Imsyser can suppress most of the bad side effects caused by some medications, like those used in chemotherapy, for instance. In fact, Imsyser is so safe that even children and pregnant women can use it without any fear of side effects.

Q: Does Imsyser have any side effects?

A: No.

Because Imsyser has quite strong antioxidant values, one might experience a slight headache or excessive sweat

production during the first three days. No other side effects have ever been reported.

Q: What if Imsyser does not help with my condition?

A: Even if the success ratio of Imsyser is very high, we do believe that, in some cases, too much damage has already been done to the body and therefore Imsyser will not be able to assist in turning the condition around. Also keep in mind that Imsyser is not a medicine or a quick cure. Instead, the product aids the body to heal itself by supplying the correct 'food' it needs to produce fighter cells that attend to biological malfunctions. Imsyser not only supplies essential amino acids and fatty

imsyser[®]
Health Products

www.imsyser.co.za | 086 010 3859 | info@imsyser.co.za

acids, but also many beneficial, non-essential substances as well. Even if Imsyser may not help for a condition, we believe that it will result in a general feeling of well-being because it stimulates the immune system and assists in preventing other problematic conditions caused by the improper functioning of the immune system.

Q: For how long should I use Imsyser?

A: Because the benefits are ongoing, one should continue taking Imsyser indefinitely. Imsyser does not only detoxify the body by getting rid of free radicals, but also supplies amino acids and Omega -3, -6 and -9 fatty acids, which most modern diets fail to provide. The longer one uses Imsyser, the better the chances of maintaining optimum health.

Q: Is it possible to overdose with Imsyser?

A: No.

Imsyser contains no harmful chemicals, stimulants, colorants, preservatives or even herbal extracts. As Imsyser is a 'food supplement' that contains only what you are supposed to get in a healthy diet, it is perfectly safe to use, even in huge quantities. Some people, especially those that suffer from cancer and HIV/Aids, have reported using up to 12 tablets a day with no known side effects.

Q: Will my medical Aid pay for Imsyser?

A: Imsyser meets the requirement from medical aids by having a Nappi Code. We find that many medical aid programme make provision for food supplements as they cannot deny the resulting benefits, but, even so, it is still your medical aid's prerogative whether to pay for Imsyser. You'll have to check with yours to find out.
